

# Armature Coils

Small Wound and  
Lap Wound Orphan  
Armature Coils

## QUALITY REPLACEMENTS

We manufacture high quality armature coil replacements for AC and DC motors. Each armature coil is engineered to insure proper fit and long operational life. Coils are formed on steel forms or machine spread formed to exact size per coil data or sample coil. Each coil is placed in a mock-up of the machine coil in each stage of the manufacturing process to guarantee proper fit. We are so confident of our AC and DC products that we offer a two (2) year warranty on our coils.
