

# Stator Coils

Stator Dip and Bake

Stator VPI

## QUALITY AND EXPERIENCE

For over three quarters of a century, Southern Electric Coil has been producing the highest quality stator coils on the market. Each stator coil is engineered to ensure proper fit and long operational life. Our coils are tested at every stage of development to ensure that they meet our customer's exact specifications. Souther Electric Coil offers a variety of insulation systems to suit your needs. Our standard insulation is Class F (155° C); we also offer Class H or higher insulation systems or coils that are insulated to work with a customer's VPI system.
